

NIS 2 Directive Foundation

Become acquainted with the basic concepts and requirements of NIS 2 Directive

Why should you attend?

The NIS 2 Directive Foundation training course provides an introduction to the NIS 2 Directive aiming to help organizations enhance their cybersecurity in the face of ever-emerging cyber threats. This legislation serves as a central role in strengthening cybersecurity within critical infrastructure sectors such as energy, transport, healthcare, and digital services. The PECB NIS 2 Directive Foundation training course covers the fundamental concepts related to the Directive's requirements. It provides information that will help you understand the best practices for protecting critical infrastructure from cyber threats.

After attending the training course, you can take the exam, and if you successfully pass it, you can apply for a "PECB Certificate Holder in NIS 2 Directive Foundation" credential.

Who should attend?

- Cybersecurity professional seeking to gain a fundamental understanding of the requirements of the NIS 2 Directive and learn practical strategies to implement robust cybersecurity measure
- IT managers and professionals aiming to gain fundamental insights into implementing secure systems and improving the resilience of critical systems
- Government and regulatory officials responsible for enforcing the NIS 2 Directive

Learning objectives

This training course will help you:

- Explain the fundamental concepts and definitions of NIS 2 Directive
- Interpret the main requirements of the NIS 2 Directive for a cybersecurity program
- Identify the approaches and techniques used for the implementation of NIS 2 requirements

Course agenda

DURATION: 2 DAYS

- **Day 1**: Introduction to fundamental concepts and definitions of NIS 2 Directive
- **Day 2**: NIS 2 Directive requirements for the implementation of a cybersecurity program

Prerequisites

- There are no prerequisites to participate in this training course.

Examination

DURATION: 1 HOUR

The "PECB NIS 2 Directive Foundation" exam meets the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- **Domain 1**: Fundamental concepts and definitions of NIS 2 Directive
- **Domain 2**: NIS 2 Directive requirements

For specific information about exam type, languages available, and other details, please visit the List of PECB Exams and the Examination Rules and Policies.

Certification

After successfully passing the exam, you can apply for the credentials shown below. You will receive the certificate after passing the exam.

For more information about NIS 2 Directive Foundation certifications and the PECB certification process, please refer to the Certification Rules and Policies.

General information

- Certification fees are included in the exam price.
- Participants will receive the training course material containing over 200 pages of explanatory information, examples, best practices, exercises, and quizzes.
- An attendance record worth 14 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who complete the training but do not pass the exam can retake the exam at no additional cost within a 12-month period from the initial exam date.
